

MINI HELMETS

PERSONALIZED MINI HELMETS INFO GUIDE 2025

For personalized mini helmets

Bell Mini Helmets offers a variety of 1:2 Scale mini helmets, featuring accurately shaped models from Bell and other popular helmet brands.

We require a master, which can be either a painted mini helmet or a full-size helmet. This Master will serve as the reference for production and is considered to be accurate. If needed, the Client has the option to have their personal painter create the Master after obtaining a white mini helmet from us. Alternatively, we can produce the mini master ourselves, with costs ranging from 1.110 EUR to 2.960 EUR, depending on the complexity of the painting and artwork.

Once we receive the Master, we will develop a Decal Prototype for the Client's approval. Upon approval of the prototype, we will proceed with production.

Accuracy of the Master and/or prototype

In all cases, the Client is fully responsible for the accuracy of the Master and all related files. If Bell Mini Helmets develops the Master, the Client remains responsible for providing accurate files.

Any work done by Bell Mini Helmets, whether it's the Master or prototype, is considered correct if it matches the submitted Master or provided files

Please note that once we begin developing the Master or prototype, any modifications will incur additional charges

Prices Applicable for the models HP7, HP77, GP7 and HP10 Rally. Prices (per unit of identical designs). Free Carrier Bahrain

48 - 128 units	140.00 EUR per mini
160 - 256 units	90.00 EUR per mini
288 - 608 units	83.00 EUR per mini
640 - 1.600 units	78.00 EUR per mini

* Kindly note that for all old models a 20% extra charges will be added to the unit price

The prices mentioned above are based on quantities of identical designs with standard colors.

For the addition of colored visors, colored interior, colored hardware, an extra charge of 6 EUR will be added to the prices mentioned above.

Prices are quoted for minis with standard paintings/artwork.

Prices are for production of minis only; any applicable third-party royalties will be added to these prices.

Prices are valid for production using existing shell models. Any modifications to the shell will be subject to additional tooling cost.

Payment Terms and Production lead time

Graphics development fees must be 100% prepaid before development begins.

Production and delivery require a 50% down payment before production begins.

The remaining 50% balance is due before delivery.

Upon receiving the confirmed purchase order and final design, a sample will be prepared within 3 working weeks.

After the sample is approved, the production lead time will vary between 8 and 12 weeks, depending on the projects in queue at the time of the sample's approval.

Cancellations

Master: If we produce the master and production has started, it cannot be canceled, and the full price of the master will be charged.

Prototype: Once prototype development has begun, any cancellation will result in a charge for the development costs, estimated between **3.000 EUR and 6.000 EUR**, depending on the design, colors, and films used.

If a cancellation occurs after the prototype has been approved and production has begun, the cancellation charges will include the prototype development fees and the cost of any materials or goods already committed to the production.

Incoterms

The quoted prices are Ex-Works (EXW) Bahrain and do not include shipping, taxes, or import duties. The buyer is responsible for all costs and risks associated with the goods from the point of departure at our warehouse in Bahrain to their final destination.

For European imports, please note that the applicable Tariff Customs Code is 95030095
